

AMS 3095A Direct to metal (DTM) Paint system

High gloss exterior DTM paint system
for commercial fleet maintenance

- Reliable paint system for any type of commercial aircraft
- Globally endorsed by major OEMs
- AMS 3095A qualified

Maximum benefit

AkzoNobel Aerospace Coatings' AMS 3095A qualified high gloss direct to metal (DTM) paint system provides simplicity and economy. Commercial airlines and paint facilities can use the direct to metal paint system for any type of aircraft, in a variety of climates anywhere in the world.

The Aerospace Material Specification AMS 3095A is considered a worldwide standard of excellence and is globally endorsed by the major OEMs. The direct to metal AMS 3095A qualification marks an opportunity to improve the efficiency of aircraft maintenance.

Improved efficiency

The direct to metal paint solution, composed of Aerodur LV 2114 primer and Aerobase Base Coat/Clear Coat, eliminates the need to use any kind of metal pre-treatment such as Alodine, Solgel or wash primer technologies. The primer is applied directly to the clean Scotch-Brited substrate. The primer itself provides the necessary adhesion and corrosion resistance to meet the stringent AMS 3095A specification requirements.

The paint system provides easy strip-ability within the typical MRO requirements. Other key factors demonstrating the benefits of the DTM system are reduction in process times, resulting in shorter AOG times and reduced maintenance costs.

“AMS 3095A – High gloss exterior paint system for a GLOBAL market”

Strong brand identity

To ensure the highest possible quality and minimum downtimes, customers can select the latest Aerobase Base Coat/Clear Coat technology. With a guarantee for world-class results, customers will experience speed, ease of use, a top quality finish with extended durability and a gloss that outshines the rest.

- Ultimate protection
- Durable 'factory new' look
- Consistent fleet appearance
- Passenger confidence

Global technical service

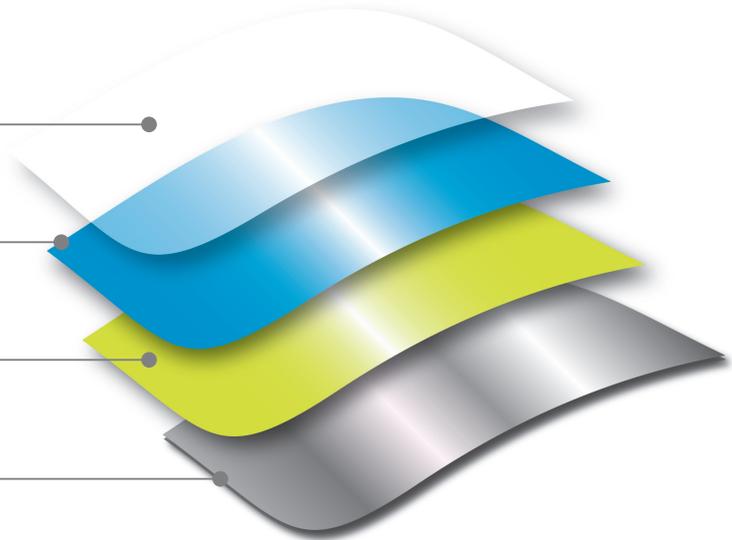

AkzoNobel Aerospace Coatings' high gloss paint systems help customers around the world to manage costs while keeping up to the highest quality standards. By knowing the market precisely, offering advanced technical expertise and working together in partnership, AkzoNobel helps you to create the perfect finish.
