

Scheduled Maintenance Costs DA40 NG GFC 700, A/C, LR Tank

Version:

from May 18th, 2015

Important Notes:

- All figures are **estimations** based on a **specific configuration** (*DA40 NG*: GFC700, A/C, LR Tank)
- All figures are based on the AMM DA40 NG Rev.2 and TR (see below) and on the labour allowance estimated for the scheduled work
- All figures are based on labour costs in Austria (€ 87/hour mechanic and 92/hour Avionic technician, excl. VAT) + parts due (excl. VAT)
- All figures are based on aircrafts which are not registered in the USA.
- All information, specifications and prices are subject to change without notice.
- This guide is for information and internal use only and is not legally binding.
- This calulation (as a whole or partly) is not allowed to be a part of a contract It is just for information.

Used Documentation:

AMM DA40NG Rev.2

AMM-TR MÄM 40-561	AMM-TR MÄM 40-647	
AMM-TR MÄM 40 658	AMM-TR MÄM 40-678	

AMM-TR MÄM 40-709

Not included in the calculation:

- Consumerables, wear and tear, oil* and fuel
- Insurances, costs of financing, hangar costs etc.
- Unscheduled maintenance work

AMM-TR MÄM 40-661

This calculation only refers to scheduled maintenance tasks from 0 to 3,600 flight hours since new.

The above mentioned indications are only non binding figures and refer to internal and current account charges.

Service Bulletins, Software Updates and Unscheduled Maintenance Tasks are not included.

 $^{^{\}star}$ oil which is included within the scheduled maintenance is part of the calculated costs above
